

HOW CAN I LEARN ABOUT THE ISSUES?

Since the media tends to put a liberal spin on the issues, it's sometimes a challenge to find the conservative point of view.

Eagle Forum, both on a National and State level, works hard to make educational materials available to help you understand conservative principles and apply them to the issues.

Sign up for our E-mails! You will receive information about what's going on around the state concerning conservative issues all year long, but particularly during the Legislative Session (from January 25th thru March 10th in 2016!) We'll send e-mails to keep you informed about bills on a variety of issues -- parental rights, property rights, right to life, gun rights, personal liberty, reigning in of government, fiscal responsibility and tax reduction, family issues, etc. You can use the information to get involved as we fight to pass good bills and fight to stop anything that is counter to conservative principles.

In our e-mails, we will give you **links so you can read the bill** for yourself, we'll give you **our point of view** and our reasoning, and we'll give you all the **contact information you need to quickly and easily contact the appropriate legislators**.

Of course, in really critical circumstances when time is extremely short, we'll activate our phone and text trees. When you sign up for our email alerts, we will get your information to a local chapter president who will send these highly critical notices!

At all times, we'll keep you informed about seminars, conferences, rallies, town hall meetings, etc. where you can keep yourself informed all year long!

To get more information on a variety of issues, visit:
